AUTHORISED STATUS

IFSL Titan NURS OEIC (the Company) is an open-ended investment company (OEIC) with variable capital incorporated under the OEIC Regulations. The Company is a Non-UCITS Retail Scheme as defined in the Collective Investment Schemes Sourcebook (COLL) and is also an umbrella company for the purposes of the OEIC Regulations. The Company is an alternative investment fund (AIF) and a UK AIF for the purposes of the UK AIFM Regime. The Company is incorporated in England and Wales with registered number IC001116.

The Company was authorised by an order made by the FCA with effect from 31 July 2018 with the Product Reference Number (PRN) 808857. The operation of the Company is governed by the Regulations, the Instrument of Incorporation and this Prospectus. The Company has unlimited duration.

The Company currently has three sub-funds: IFSL Titan Mazarin Cautious Fund (formerly Mazarin Cautious Fund); IFSL Titan Mazarin Balanced Fund (formerly Mazarin Balanced Fund); and IFSL Titan Mazarin Adventurous Fund (formerly Mazarin Adventurous Fund).

Shareholders of the sub-funds do not have any proprietary interest in the underlying assets of the Company and will not be liable for the debts of the Company. A sub-fund is not a legal entity. If the assets attributable to a sub-fund were insufficient to meet its liabilities the shortfall will not be met out of the assets attributable to one or more other sub-funds of the Company. The sub-funds are segregated by law under the Protected Cell Regime.

GENERAL INFORMATION

IFSL Titan Mazarin Cautious Fund (formerly Mazarin Cautious Fund)

Investment objective

The investment objective of the sub-fund is to provide capital growth, that is, to increase the value of your investment, over a minimum of 5 years.

The sub-fund aims to have an average yearly volatility (a measure of the size of short term changes in the value of an investment), below 9% per year, over any 5-year period. This may limit the potential for capital growth.

There is no guarantee that the sub-fund will meet its investment objective or volatility target and investors may not get back the amount invested.

Investment policy

At least 70% of the sub-fund's assets will be invested in other collective investment schemes, closed-ended funds and exchange traded funds, collectively known as 'Investment Funds'. This could include other Investment Funds managed by the same Authorised Corporate Director and/or Investment Manager.

The sub-fund is actively managed, which means the Investment Manager decides which investments to buy and when, and will invest in a range of different asset classes, across different regions and industries. Chosen investments are based on predicted volatility within asset classes and global markets, using information and research provided by an independent asset allocator. The asset class exposure is likely to include lower risk investments such as government and corporate bonds (both investment grade and subinvestment grade), derivatives, money market funds and cash. The sub-fund will typically have moderate exposure to higher-risk investments including shares in companies and real assets such as property and commodities (e.g. gold, silver and oil).

In addition to the above, the Investment Funds may also hold other permitted investments such as money market instruments and structured products (a type of fixed-term investment where the amount you earn depends on the performance of a specific market or a specific asset). Investment Funds may be actively managed, or passively managed (tracking an index).

The sub-fund may also invest directly in bonds issued by companies, shares in companies, and structured products. The sub-fund is permitted to use derivatives and forward transactions linked to exchange rates in order to reduce currency risk. The sub-fund may also use derivatives to gain exposure to currencies however this is expected to be infrequent and will not form a significant part of the investment strategy.

The sub-fund will normally be fully invested save for an amount to enable ready settlement of liabilities (including redemption of shares) and efficient management of the sub-fund both generally and in relation to strategic objectives, however may hold higher cash balances in extreme market conditions.

Assessing performance

The Investment Association (IA), the trade body for UK investment managers, has created a number of 'sectors', as a way of dividing funds into broad groups with similar characteristics.

GENERAL INFORMATION

IFSL Titan Mazarin Cautious Fund (continued)

Assessing performance (continued)

The sub-fund's investment policy puts it in the IA Mixed Investment 20-60% Shares sector. You may want to assess the sub-fund's performance compared to the performance of this sector.

Where the Investment Manager has taken steps to reduce the sub-fund's volatility in order to meet the aim of not exceeding 9% yearly volatility on average over 5 years, investors should note that this may impact upon the sub-fund's returns compared to the sector as other funds will not be constrained by the same requirement.

IFSL Titan Mazarin Balanced Fund (formerly Mazarin Balanced Fund)

Investment objective

The investment objective of the sub-fund is to provide capital growth, that is, to increase the value of your investment, over a minimum of 5 years.

The sub-fund aims to have an average yearly volatility (a measure of the size of short term changes in the value of an investment), below 12% per year, over any 5-year period. This may limit the potential for capital growth.

There is no guarantee that the sub-fund will meet its investment objective or volatility target and investors may not get back the amount invested.

Investment policy

At least 70% of the sub-fund's assets will be invested in other collective investment schemes, closed-ended funds and exchange traded funds, collectively known as 'Investment Funds'. This could include other Investment Funds managed by the same Authorised Corporate Director and/or Investment Manager.

The sub-fund is actively managed, which means the Investment Manager decides which investments to buy and when, and will invest in a range of different asset classes, across different regions and industries. Chosen investments are based on predicted volatility within asset classes and global markets, using information and research provided by an independent asset allocator. The asset class exposure will include a mix of investments including shares in companies, derivatives, government and corporate bonds (both investment grade and sub-investment grade), money market funds and real assets such as property and commodities (e.g. gold, silver and oil).

In addition to the above, the Investment Funds may also hold other permitted investments such as money market instruments and structured products (a type of fixed-term investment where the amount you earn depends on the performance of a specific market or a specific asset). Investment Funds may be actively managed, or passively managed (tracking an index).

The sub-fund may also invest directly in bonds issued by companies, shares in companies, and structured products. The sub-fund is permitted to use derivatives and forward transactions linked to exchange rates in order to reduce currency risk. The sub-fund may also use derivatives to gain exposure to currencies however this is expected to be infrequent and will not form a significant part of the investment strategy.

The sub-fund will normally be fully invested save for an amount to enable ready settlement of liabilities (including redemption of shares) and efficient management of the sub-fund both generally and in relation to strategic objectives however may hold higher cash balances in extreme market conditions.

Assessing performance

The Investment Association (IA), the trade body for UK investment managers, has created a number of 'sectors', as a way of dividing funds into broad groups with similar characteristics.

The sub-fund's investment policy puts it in the IA Mixed Investment 40-85% Shares sector. You may want to assess the sub-fund's performance compared to the performance of this sector.

Where the Investment Manager has taken steps to reduce the sub-fund's volatility in order to meet the aim of not exceeding 12% yearly volatility on average over 5 years, investors should note that this may impact upon the sub-fund's returns compared to the sector as other funds will not be constrained by the same requirement.

GENERAL INFORMATION

IFSL Titan Mazarin Adventurous Fund (formerly Mazarin Adventurous Fund)

Investment objective

The investment objective of the sub-fund is to provide capital growth, that is, to increase the value of your investment, over a minimum of 5 years.

The sub-fund aims to have an average yearly volatility (a measure of the size of short term changes in the value of an investment), below 15% per year, over any 5-year period. This may limit the potential for capital growth.

There is no guarantee that the sub-fund will meet its investment objective or volatility target and investors may not get back the amount invested.

Investment policy

At least 70% of the sub-fund's assets will be invested in other collective investment schemes, closed-ended funds and exchange traded funds, collectively known as 'Investment Funds'. This could include other Investment Funds managed by the same Authorised Corporate Director and/or Investment Manager.

The sub-fund is actively managed, which means the Investment Manager decides which investments to buy and when, and will invest in a range of different asset classes, across different regions and industries. Chosen investments are based on predicted volatility within asset classes and global markets, using information and research provided by an independent asset allocator. The asset class exposure is likely to include higher risk investments including shares in companies and real assets, for example property and commodities (e.g. gold and oil). The sub-fund will typically have lower exposure to lower-risk investments such as government and corporate bonds (both investment grade and sub-investment grade), derivatives, money market funds and cash.

In addition to the above, the Investment Funds may also hold other permitted investments such as money market instruments and structured products which are a type of fixed-term investment where the amount you earn depends on the performance of a specific market or a specific asset. Investment Funds may be actively managed, or passively managed (tracking an index).

The sub-fund may also invest directly in bonds issued by companies, shares in companies, and structured products. The sub-fund is permitted to use derivatives and forward transactions linked to exchange rates in order to reduce currency risk. The sub-fund may also use derivatives to gain exposure to currencies however this is expected to be infrequent and will not form a significant part of the investment strategy.

The sub-fund will be fully invested save for an amount to enable ready settlement of liabilities (including redemption of shares) and efficient management of the sub-fund both generally and in relation to strategic objectives however may hold higher cash balances in extreme market conditions.

Assessing performance

The Investment Association (IA), the trade body for UK investment managers, has created a number of 'sectors', as a way of dividing funds into broad groups with similar characteristics.

The sub-fund's investment policy puts it in the IA Flexible Investment sector. You may want to assess the sub-fund's performance compared to the performance of this sector. From time to time, due to the nature of the IA Flexible Investment sector, the sub-fund may have an asset allocation which is different to the average of the sector. This variable nature of the sector should be taken into consideration when comparing the performance of the sub-fund.

Where the Investment Manager has taken steps to reduce the sub-fund's volatility in order to meet the aim of not exceeding 15% yearly volatility on average over 5 years, investors should note that this may impact upon the sub-fund's returns compared to the sector as other funds will not be constrained by the same requirement.

Rights and terms attached to each share class

A share of each class represents a proportional entitlement to the assets of a sub-fund. The allocation of income and taxation and the rights of each share in the event that a sub-fund is wound up are on the same proportional basis.

Taskforce on climate-related financial disclosures

A statement of the climate-related financial disclosures is published on the website https://www.ifslfunds.com/tcfd-reporting.

GENERAL INFORMATION

Changes in prospectus

On 1 June 2024, SS&C Financial Services International Limited became the administrator and registrar of the Fund. Prior to this date the administrator and registrar was IFSL.

On 18 October 2024 the name of the OEIC was changed from Mazarin OEIC to IFSL Titan NURS OEIC and 5 new multi-asset funds which were launched are: IFSL Titan Defensive Fund, IFSL Titan Cautious Fund, IFSL Titan Balanced Fund, IFSL Titan Growth Fund, and IFSL Titan Adventurous Fund.

On 5 December 2024 the four new Square Mile Funds were launched: IFSL Titan Square Mile UK Equity Fund, IFSL Titan Square Mile Global Equity Fund, IFSL Titan Square Mile International Fixed Interest Fund, and IFSL Titan Square Mile Alternative Strategies Fund.

On 5 December 2024, the four existing sub-funds' names were changed as follows:

Current	New
Mazarin Defensive Fund (Not Yet Launched)	IFSL Titan Mazarin Defensive Fund (Not Yet Launched)
Mazarin Cautious Fund	IFSL Titan Mazarin Cautious Fund
Mazarin Balanced Fund	IFSL Titan Mazarin Balanced Fund
Mazarin Adventurous Fund	IFSL Titan Mazarin Adventurous Fund

Up to date Key Investor Information Documents, Prospectus and Long Reports and Financial Statements for any fund within the ACD's range, can be requested by the investor at any time.

Cross holdings

The sub-funds of the Company do not hold shares in other sub-funds of the Company.

Leverage

In accordance with the Alternative Investment Fund Manager Directive (AIFMD) we are required to disclose the 'leverage' of the subfunds. Leverage is defined as any method by which a sub-fund increases its exposure through borrowing or the use of derivatives. 'Exposure' is defined in two ways: 'gross method; and 'commitment method'. The sub-funds must not exceed maximum exposures under both methods. 'Gross method' exposure is calculated as the sum of all positions of the sub-funds (both positive and negative), that is, all eligible assets, liabilities and derivatives, including derivatives held for risk reduction purposes. 'Commitment method' is also calculated as the sum of all positions of the sub-funds (both positive and negative), but after netting off any derivative and security positions as specified by AIFMD rules.

The maximum level of leverage which may be employed on behalf of the sub-funds when calculated in accordance with the gross method is 210% (31 May 2024: 210%).

The maximum level of leverage which may be employed on behalf of the sub-funds when calculated in accordance with the commitment method is 110% (31 May 2024: 110%).

The total amount of leverage, and the utilisation of the maximum level of leverage, calculated as at 30 November 2024, is as follows:

Sub-fund Name	nd Name Gross Method		Commitme	ent Method
	Total	Utilisation	Total	Utilisation
IFSL Titan Mazarin Cautious Fund	91.69%	43.66%	91.69%	83.35%
IFSL Titan Mazarin Balanced Fund	94.71%	45.10%	94.71%	86.10%
IFSL Titan Mazarin Adventurous Fund	97.69%	46.52%	97.69%	88.81%

The total amount of leverage, and the utilisation of the maximum level of leverage, calculated as at 31 May 2024, is as follows:

Sub-fund Name	Gross Method		Name Gross Method Commitment		ent Method
	Total	Utilisation	Total	Utilisation	
Mazarin Cautious Fund	91.74%	43.69%	91.74%	83.40%	
Mazarin Balanced Fund	97.98%	46.66%	97.98%	89.07%	
Mazarin Adventurous Fund	96.81%	46.10%	96.81%	88.01%	

AUTHORISED INVESTMENT MANAGER'S REPORT - SUMMARY OF THE MARKETS

for the six month period ended 30 November 2024

Overall, the sub-funds performed above expectations. All three sub-funds increased in value over the period.

Most equity and bond markets posted positive returns over this 6 month period. Interest rate expectations rapidly re-priced from the end of the year to April. US equities continued to outperform most other developed markets with the UK and Europe lagging. Our preference for US equities over the UK and Europe aided portfolio returns over this time period. Bond markets also traded higher over this period with the high yield market continuing to outperform.

Titan Investment Solutions Limited 10 January 2025

AUTHORISED CORPORATE DIRECTORS' STATEMENT

This report has been prepared in accordance with the requirements of the Collective Investment Schemes Sourcebook as issued and amended by the Financial Conduct Authority.

1P.Lean

Director

Helen Redmond

Allan Hamer Director

Investment Fund Services Limited 28 January 2025

NOTES TO THE INTERIM FINANCIAL STATEMENTS

for the six month period ended 30 November 2024

Basis for preparation

The interim financial statements have been prepared in compliance with Financial Reporting Standard (FRS) 102 and in accordance with the Statement of Recommended Practice (SORP) for UK Authorised Funds issued by the Investment Management Association (renamed to the Investment Association) in May 2014, and amended in June 2017.

The interim financial statements are prepared in sterling, which is the functional currency of the sub-funds. Monetary amounts in these financial statements are rounded to the nearest pound.

The interim financial statements have been prepared on the historical cost convention, modified to include the revaluation of investments and certain financial instruments at fair value.

Accounting policies

The accounting policies applied are consistent with those of the annual financial statements for the year ended 31 May 2024 and are described in those annual financial statements.

The investments of the sub-funds have been valued at their fair value at 12 noon on 29 November 2024.

AUTHORISED INVESTMENT MANAGER'S REPORT

for the six month period ended 30 November 2024

Performance to 30 November 2024

<u>S</u>	<u>Six months</u>	<u>1 year</u>	<u>3 years</u>	<u>5 years</u>
IFSL Titan Mazarin Cautious Fund	6.38%	13.73%	6.01%	21.34%
IA Mixed Investment 20-60% Shares	4.49%	11.39%	4.97%	15.38%

External Source of Economic Data: Morningstar (A Accumulation - quoted price to quoted price).

The performance figures above are based on quoted prices and will, therefore, differ from the performance in the Comparative Table.

Capital at risk. Past performance is not a reliable indicator of future performance; the value of your investment and any income from it can go down as well as up. Performance returns are based on the net asset value with distributable income reinvested and take account of all ongoing charges, but not entry charges (if applicable). The past performance of this share class is calculated in sterling.

Investment commentary

The performance of IFSL Titan Mazarin Cautious Fund (the sub-fund) was positive over the period with the A Accumulation share class returning 6.38% net of fees. The sub-fund is invested in a total of 16 holdings and is structured to provide global investment exposure to multiple asset classes, such as bonds and equities, which are company shares.

Among the largest contributors to performance were the SPDR S&P 500 Exchange Traded Fund (ETF)*, SPDR MSCI World ETF and T Rowe Price US Structured Research Equity Fund.

All holdings delivered positive returns over the period but among the worst performing positions were the Vanguard Global Emerging Markets Fund and the iShares FTSE 100 ETF.

The sub-fund is actively managed, with the investment manager making the investment decisions. The sub-fund's investment policy puts it in the Investment Association Mixed Investment 20-60% Shares sector which can be used for performance comparison purposes.

Titan Investment Solutions Limited 10 January 2025

* Exchange traded fund (ETF) - a basket of investments that usually includes shares and bonds. Funds are a ready-made investment portfolio run by a professional fund manager.

^A This share class launched on 21 April 2023 with shares initially issued on 29 August 2023 at 100 pence.

^B The return after charges is calculated using the underlying investments bid prices.

^c These figures have been annualised.

Operating charges are normally the same as the Ongoing Charges Figures (OCFs) and are the total expenses paid by each share class in the period. Where it is considered unsuitable to use the total expenses paid by each share class in the period to calculate the OCF because of material changes to the sub-fund's charges an estimate will be calculated instead. The OCFs disclosed in the Key Investor Information Document (KIID) (available on IFSL's website, www.ifslfunds.com) give an estimate of future costs.

Direct transaction costs are the total charges for the period, included in the purchase and sale of investments in the portfolio of the subfund. These amounts are expressed as a percentage of the average net asset value over the period and the average shares in issue for the pence per share figures.

SYNTHETIC RISK AND REWARD INDICATOR (all share classes)

Lower risk				Higher risk			
<							
Typically lower rew	vards				Туріс	ally higher rewards	
1	2	3	4	5	6	7	

This indicator aims to give you a measure of the price movement of the sub-fund based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio is used.

The sub-fund has been measured as 4 because its investments have experienced moderate volatility in the past. During the period the synthetic risk and reward indicator has remained unchanged.

AUTHORISED INVESTMENT MANAGER'S REPORT

for the six month period ended 30 November 2024

Performance to 30 November 2024

	Six months	<u>1 year</u>	<u>3 years</u>	5 years
IFSL Titan Mazarin Balanced Fund	7.34%	17.74%	7.25%	28.30%
IA Mixed Investment 40-85% Shares sector	5.41%	14.80%	8.72%	27.34%

External Source of Economic Data: Morningstar (A Accumulation - quoted price to quoted price).

The performance figures above are based on quoted prices and will, therefore, differ from the performance in the Comparative Table.

Capital at risk. Past performance is not a reliable indicator of future performance; the value of your investment and any income from it can go down as well as up. Performance returns are based on the net asset value with distributable income reinvested and take account of all ongoing charges, but not entry charges (if applicable). The past performance of this share class is calculated in sterling.

Investment commentary

The performance of IFSL Titan Mazarin Balanced Fund (the sub-fund) was positive over the period with the A Accumulation share class returning 7.34% net of fees. The sub-fund is invested in a total of 15 holdings and is structured to provide global investment exposure to multiple asset classes, such as bonds and equities, which are company shares.

Among the largest contributors to performance were the SPDR S&P 500 Exchange Traded Fund (ETF)*, SPDR MSCI World ETF and T Rowe Price US Structured Research Equity Fund.

All holdings delivered positive returns over the period but among the worst performing positions were the Vanguard Global Emerging Markets Fund and the iShares FTSE 100 ETF.

The sub-fund is actively managed, with the investment manager making the investment decisions. The sub-fund's investment policy puts it in the Investment Association Mixed Investment 40-85% Shares sector which can be used for performance comparison purposes.

Titan Investment Solutions Limited 10 January 2025

* Exchange traded fund (ETF) - a basket of investments that usually includes shares and bonds. Funds are a ready-made investment portfolio run by a professional fund manager.

Prices (pence per share)				
Highest share price	130.40	123.30	114.90	125.40
Lowest share price	119.30	107.90	103.10	107.70

^A The return after charges is calculated using the underlying investments bid prices.

^B These figures have been annualised.

Operating charges are normally the same as the Ongoing Charges Figures (OCFs) and are the total expenses paid by each share class in the period. Where it is considered unsuitable to use the total expenses paid by each share class in the period to calculate the OCF because of material changes to the sub-fund's charges an estimate will be calculated instead. The OCFs disclosed in the Key Investor Information Document (KIID) (available on IFSL's website, www.ifslfunds.com) give an estimate of future costs.

Direct transaction costs are the total charges for the period, included in the purchase and sale of investments in the portfolio of the subfund. These amounts are expressed as a percentage of the average net asset value over the period and the average shares in issue for the pence per share figures.

SYNTHETIC RISK AND REWARD INDICATOR

Lov	wer risk						Higher risk
←							>
Тур	oically lower rew	vards				Туріс	ally higher rewards
	1	2	3	4	5	6	7

This indicator aims to give you a measure of the price movement of the sub-fund based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio is used.

The sub-fund has been measured as 5 because its investments have experienced moderate to high volatility in the past. During the period the synthetic risk and reward indicator has remained unchanged.

AUTHORISED INVESTMENT MANAGER'S REPORT

for the six month period ended 30 November 2024

Performance to 30 November 2024

	Six months	<u>1 year</u>	<u>3 years</u>	<u>18.08.2020^A</u>
IFSL Titan Mazarin Adventurous Fund	7.39%	18.35%	5.51%	26.40%
IA Flexible Investment sector	5.09%	14.65%	9.04%	30.22%

^A Launch period ended 17 August 2020.

External Source of Economic Data: Morningstar (A Accumulation - quoted price to quoted price).

The performance figures above are based on quoted prices and will, therefore, differ from the performance in the Comparative Table.

Capital at risk. Past performance is not a reliable indicator of future performance; the value of your investment and any income from it can go down as well as up. Performance returns are based on the net asset value with distributable income reinvested and take account of all ongoing charges, but not entry charges (if applicable). The past performance of this share class is calculated in sterling.

Investment commentary

The performance of IFSL Titan Mazarin Adventurous Fund (the sub-fund) was positive over the period with the A Accumulation share class returning 7.39% net of fees. The sub-fund is invested in a total of 12 holdings and is structured to provide global investment exposure to multiple asset classes, such as bonds and equities, which are company shares.

All holdings delivered positive returns over the period but among the worst performing positions were the Vanguard Global Emerging Markets Fund and the iShares FTSE 100 ETF.

Among the largest contributors to performance were the SPDR S&P 500 Exchange Traded Fund (ETF)*, SPDR MSCI World ETF and T Rowe Price US Structured Research Equity Fund.

The sub-fund is actively managed, with the investment manager making the investment decisions. The sub-fund's investment policy puts it in the Investment Association Flexible Investment sector which can be used for performance comparison purposes.

Titan Investment Solutions Limited 10 January 2025

* Exchange traded fund (ETF) - a basket of investments that usually includes shares and bonds. Funds are a ready-made investment portfolio run by a professional fund manager.

^A Shares initially issued on 24 August 2022 at 107.70 pence.

^B The return after charges is calculated using the underlying investments bid prices.

^C These figures have been annualised.

Operating charges are normally the same as the Ongoing Charges Figures (OCFs) and are the total expenses paid by each share class in the period. Where it is considered unsuitable to use the total expenses paid by each share class in the period to calculate the OCF because of material changes to the sub-fund's charges an estimate will be calculated instead. The OCFs disclosed in the Key Investor Information Document (KIID) (available on IFSL's website, www.ifslfunds.com) give an estimate of future costs.

Direct transaction costs are the total charges for the period, included in the purchase and sale of investments in the portfolio of the subfund. These amounts are expressed as a percentage of the average net asset value over the period and the average shares in issue for the pence per share figures.

SYNTHETIC RISK AND REWARD INDICATOR (all share classes)

Lower risk						Higher risk
<						
Typically lower rew	ards				Гуріс	ally higher rewards
1	2	3	4	5	6	7

This indicator aims to give you a measure of the price movement of the sub-fund based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio is used.

The sub-fund has been measured as 5 because its investments have experienced moderate to high volatility in the past. During the period the synthetic risk and reward indicator has remained unchanged.
